## App. development Competition

### **Introduction:**

Technology maniacs! We know you're always full of ideas to change the world, and so we present to you the "App Dev Challenge".

Participants should propose an App-based technical solution to tackle existing problems or innovate new ideas that will be monetarily feasible and lead to a successful startup or benefit society. The submissions will be checked through GitHub repository links, and judgment/scoring will be based on the novelty of approach, feasibility, and practicality. Warm up your brains!

**Note:** Solutions covering Covid-19 will be given more weightage in the idea section.

### **Rules:**

1. Work should be submitted through [Github](#) including .apk file.
2. Name of the repository (**naming convention must be strictly followed**) - **tirutsava21\_appdev**
3. Plagiarism is strictly not allowed.
4. Target SDK above Gingerbread.
5. API calls made if any, should be acknowledged in the readme file.
6. No personal info should be disclosed in the form of dummy data in the app or else will lead to deduction of score.
7. There is no restriction on the choice of framework.

### **Privacy:**

- We reserve the right to publish the winner's name and the submitted work.
- Any type of malpractices are strictly prohibited and plagiarism is highly discouraged. In case of any discretion, the final results by our jury will be considered.
- All the submitted information is voluntary during the competition. The data will be kept confidential.

### **Results:**

Scoring will be based on following criteria:

- Idea of the App.
- Feasibility and Impact of the App.
- Explanation in Readme.md file
- Working .apk file
- Commit history

The top 2 winners will get exciting (cash) prizes and the competition is valid when a minimum of five candidate's applications are received.
